

Classic Single Hung

Conventional beauty that performs as well as it looks. With a long list of features and options to suit your aesthetic vision, combined with the durability and easy operation of vinyl, Next Dimension Classic single hung windows offer years of functional good looks.

Features include an integral weep system for a sleek look, block and tackle balances for effortless operation, integral lift/pull handle for easy access and optional simulated

divided lites to create the look of individual panes while maintaining the energy efficiency of a single pane of insulated glass.

Establish a new tradition of beauty with Next Dimension Classic single hung windows.

Classic Slider

Opening and closing your windows is now a thing of beauty with the Next Dimension Classic slider.

Blending smooth gliding operation with traditional styling and the technological advantages of vinyl construction, Next Dimension Classic is sure to meet your performance and architectural needs.

A roller supported venting sash offers effortless operation, and simulated divided lites, pocketed sill, integral weep

system and other features lend traditional silines for a classic look. Additionally, a fusion-welded frame sash, air spaces in chambers and locking mechanism all contribute to enhanced energy efficiency.

When you're searching for a high-performance sliding window with traditional character, look no further than Next Dimension Classic.

NEXT DIMENSION SLIDING PATIO DOOR, Arkany, Iowa

Next Dimension Sliding Patio Doors

The door to beauty is wide open. Next Dimension sliding patio doors are built to provide easy sliding, every time you open or close them.

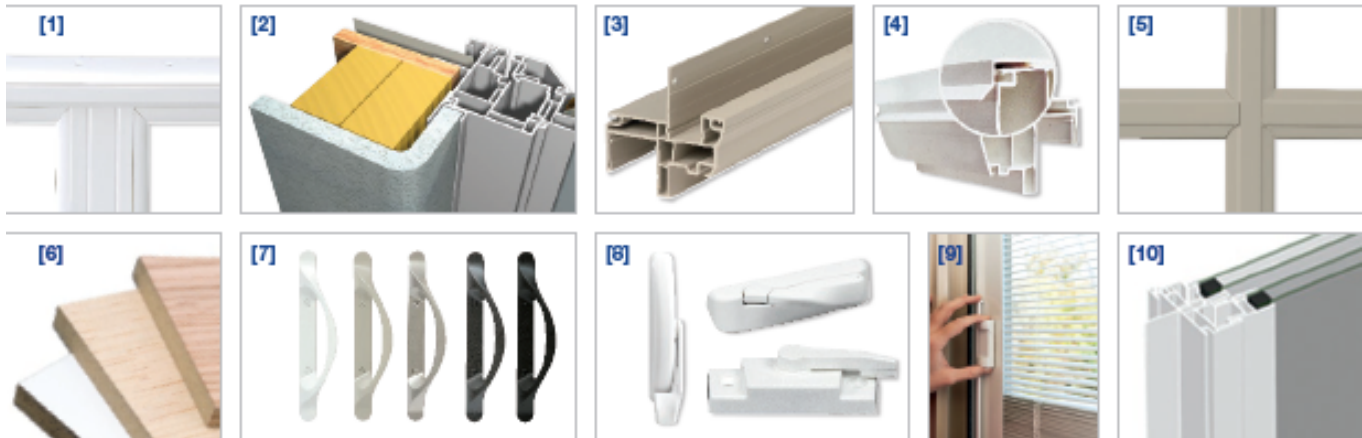

Next Dimension sliding patio doors are designed to be easily installed for new construction and replacement alike. Versatility shines through with a range of accessories, glass options, colors and blinds between the glass, including the "D" shaped handle, which comes in five colors to add the final personal touch to your sliding patio door.

Building on the ease-of-use and long-lasting performance of all Next Dimension products, our sliding patio doors can be fitted with an optional blinds between the glass system. Featuring simple, no-cord operation safe for pets and children, lift and tilt functionality and effortless cleaning, our patio doors with blinds between the glass are designed to offer a no-hassle solution to let you control natural light and privacy in your home.

Plus, you'll enjoy all the long-lasting performance and beauty afforded by the Next Dimension line of vinyl products.

Our Quality is in the Details

[1] MULLION POST Next Dimension Pro windows utilize an aluminum reinforced T-bar mullion post between two windows to provide an attractive appearance, added strength and to prevent air and water infiltration.

[2] DRYWALL RETURN This accessory provides a groove for drywall to slide into, providing a sleek, finished interior edge.

[3] INTEGRAL J-CHANNEL *(Pro & Classic Only)* Provides a smooth, finished edge for vinyl siding applications. Available on single hung, slider, picture and radius.

[4] DRIP CAP Just another detail we added to the top of the mull to ensure water stays out.

[5] GRILLES 3/4" profiled aluminum grilles are color matched to the unit and installed within the insulated glass airspace. This provides the look of authentic divided lite and allows for easy cleaning. 5/8" and 7/8" putty simulated divided lite grilles are available in Signature and Classic windows.

[6] EXTENSION JAMBS Extension jambs are available in pine and oak for stained interiors or in white for painted interiors. These are available as a separate kit or applied.

[7] SLIDING PATIO DOOR HARDWARE Our patio door handles feature a versatile "D" shape in white, clay, satin nickel, faux bronze or black to coordinate with your door color.

[8] WINDOW HARDWARE The beauty of Next Dimension windows is carried right down to the sleek design of our hardware. They are available in clay, white or black to match the units.

[9] BLINDS BETWEEN THE GLASS *(Patio Door Only)* Control light and privacy with blinds between the glass. This no-cord, easy-to-clean option adds lift and tilt features, simple operation and long-lasting performance.

[10] EASY-OUT™ SASH SYSTEM *(Pro Only)* A feature unique to Next Dimension Pro models, the Easy-Out Sash System is designed for easy removal of the entire lower sash, making installation and replacement easier than ever. And, the Easy-Out Sash System's pocket design creates consistent pressure against the weatherstrip, meaning no loss in air and water performance.

Options & Accessories

Finishing touches to perfect your vision. Windsor does more than just create durable, high-performance windows and doors. We pay attention to every detail and offer a wide array of options and finishes to match any décor. Flashy and eye-catching or simple and understated, our hardware, finishes, grille options, vinyl colors, glass options and grille patterns complete the perfect window and door package.
